

## The Shield Activity.

### **Context:**

Use with groups who have recently formed or need a basic introduction to self-awareness. Also good with groups who need to develop a sense of diversity and tolerance

### **Group/Level:**

Any group/level.

### **Method:**

- Decide information shield will ask for
- Tell students they can draw and/or write their responses
- Give students time to fill in and think about each area of the shield
- Do it yourself...

### **Alternative ideas:**

Change the titles of each area on the shield to cover your subject. E.g. Job you would like, Earnings you'd like, Skills you have, Where you'd like to be in 5 years.
